

# Micro Sensor Hard Ceiling Mount Carrier

## SPECIFICATION

The Enlighted Hard Ceiling Mount Carrier is a flexible mounting solution for the SU-5E micro sensor. The Hard Ceiling Mount Carrier provides adequate framing around the sensor when the SU-5E needs to be installed in a hard ceiling or inside a light fixture diffuser where a minimal radial profile is needed.

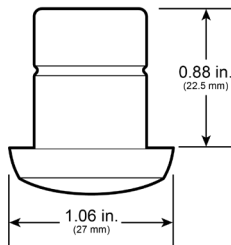

### FEATURES

- Designed for standard 7/8" diameter hole size.
- Push in design requires no special tools.
- Works in drywall ceilings, ceiling tiles, or light diffusers.

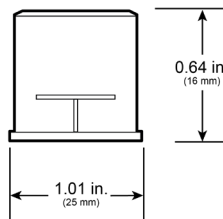

### INSTALLATION

1. Drill a 7/8" diameter hole where the sensor is to be mounted.
2. Insert the sensor cable through the Hard Ceiling Mount Carrier and connect it to the SU-5E sensor.
3. Push the carrier onto the sensor and push the entire assembly into the hole.

### DIMENSIONS

Micro Sensor (SU-5E)

Hard Ceiling Mount Carrier

Hard Ceiling Mount Carrier

Diameter	1.01"	25 mm
Depth	0.64"	16 mm
